Foreign bodies, blunt, from esophagus, use of Foley catheter for removal of (Bigler), 759

G

Ganglionic blockade, experimental application during barbiturate intoxication, hemorrhage, and. I. Intracaval electrophrenic stimulation (Daggett et al.), 676
Gradients, oxygen, alveolar-arterial, after open intracardiac surgery (Geha et al.), 609
Grafts, bypass, blood flow in (Barner and DeWeese), 667
Graves' disease, thymolipoma in patient with (Benton and Gerard), 428

H

Heart block under maximal exercise, cardiovascular studies in normal dog and dog with (Schenk et al.), 854
failure, congestive, in children with atrial septal defect (Weinberg et al.), 81
repetitive firing occurring during synchronized electrical stimulation of (Castellanos et al.), 334
Hemangioma, mediastinal, posterior, associated with vertebral body hemangioma (Callahan and Simon), 283
Hematoma formation, lung, aortopulmonary fistula with (rupture of aorta into left lung) (Cosío-Pascal and Cardoso), 834
Hemodilution, renal performance during clinical cardiopulmonary bypass with and without (Mielke et al.), 229
Hemodynamic assessments of incomplete persistent atrioventricular canal (Braunwald and Morrow), 71
changes associated with total body perfusion (Najafi et al.), 590
observations in muscular subaortic stenosis, results of surgery and (Kelly et al.), 353
Hemodynamics, cardiac, immediately following aortic valve surgery (Austen et al.), 461
mitral valve surgery (Austen et al.), 468
of counterpulsation (Hahnloser et al.), 366
of intracardiac return during open-heart surgery related to type and severity of cardiac lesion (Manabe et al.), 213
Hemorrhage, barbiturate intoxication, and ganglionic blockade, experimental application during. I. Intracaval electrophrenic stimulation (Daggett et al.), 676
Homograft, mitral, replacement of mitral and tricuspid valves by (Hubka et al.), 195
Hufnagel valve prosthesis, aortic valve replacement in presence of (du Plessis et al.), 493

Hypertrophic lobar emphysema secondary to paratracheal cyst in infant (Hurwitz et al.), 412
obstructive cardiomyopathy, place of surgery in (Bentall), 49
Hypothermia, mechanism of ventricular fibrillation during (Mouritzen and Andersen), 585
Hypothermic perfusion, coronary resistance changes with (Sterns et al.), 579

I

Incomplete persistent atrioventricular canal (Braunwald and Morrow), 71
Infant(s), double aortic arch associated with tetralogy of Fallot in (Binet et al.), 116
hypertrophic lobar emphysema secondary to paratracheal cyst in (Hurwitz et al.), 412
Infarcts, experimental, by myocardial rubidium^{86} ion uptake patterns, quantitation of (Killen et al.), 597
Insertion of transvenous endocardial pacemaker, technique for (Smyth), 755
Instrument, Nakayama's, for small vessel anastomoses (Abe et al.), 808
Insufficiency, valvular, tricuspid, isolated, due to subacute bacterial endocarditis (Kennedy et al.), 498
Intracardiac prostheses, endocarditis associated with (Amoury et al.), 36
surgery, open, alveolar-arterial oxygen gradients after (Geha et al.), 609
Ion uptake patterns, rubidium^{86}, myocardial, quantitation of experimental infarcts by (Killen et al.), 597
Irradiation, preoperative, in the treatment of clinically operable lung cancers (Lawton et al.), 745
Isolated (primary) chylopericardium (Hudspeth and Miller), 528
Intrapulmonary stromal mesothelioma (Abrahamson and Friedman), 300
thymoma (Yeoh et al.), 131
Intubation, prosthetic, palliation of esophageal carcinoma by (Fell et al.), 272
Irradiation, preoperative, in patients undergoing pneumonectomy for carcinoma of lung (Mark et al.), 30

L

Laceration, thoracic duct: Closure under conservative management based on lymphangiography evaluation (Chavez and Conn), 724
Leaflet advancement, technique for correction of mitral insufficiency by (Sauvage and Wood), 649
Lecture Series, Extramural NIH: Cardiovascular surgery, past and present (Blalock), 153
Ligation, coronary artery, experimental, left heart bypass in left ventricular failure due to (Kennedy et al.), 797
Lobectomy in patient with internal cardiac pacemaker (Leagus et al.), 268
Lung(s), amyloidosis as cause of primary tumors of (Firestone and Joison), 292
cancer(s), chemotherapy and (Higgins and Wolf), 449
clinically operable, preoperative irradiation in treatment of (Lawton et al.), 745
carcinoma of, preoperative irradiation in patients undergoing pneumonectomy for (Mark et al.), 30
left, rupture of aorta into (aortopulmonary fistula with lung hematoma formation) (Cosío-Pascal and Cardoso), 834
with metastases, malignant plasmacytoma of (Kernen and Meyer), 739
one, cardiorespiratory studies in congenital absence of (Massumi et al.), 561
pulmonary complications following perfusion of (Awad et al.), 767
tumor of virologist (Glenn and Okinaka), 455
Lutembacher's syndrome, surgical treatment of (Muller et al.), 66
Lymphangiography evaluation, closure of thoracic duct laceration under conservative management based on (Chavez and Conn), 724

M

Mechanics of breathing in man, effect of heart-lung bypass on (Sullivan et al.), 205
Mediastinal hemangioma, posterior, associated with vertebral body hemangioma (Callahan and Simon), 283
Mediastinum, anterior, terminal or mural tracheostomy in (Grillo), 422
seminoma-like tumor of (Nazari and Gagnon), 751
Megaesophagus, thymoma associated with (Demos et al.), 708
Mesothelioma, stromal, intrapulmonary (Abrahamson and Friedman), 300
Mitral and aortic valve lesions, surgical correction of (Zerbini et al.), 474
insufficiency by leaflet advancement, technique for correction of (Sauvage and Wood), 649
stenosis combined with pulmonary resection, commissurotomy for (Riley), 844
valve, canine, with semilunar valves, replacement of (McKenzie et al.), 168
surgery, cardiac hemodynamics immediately following (Austen et al.), 468

Mitral valvular disease during childhood and adolescence, surgery for (Collins et al.), 639
Mousseau-Barbin tube, use in palliative surgery: Inoperable cancer of esophagus (Barnard et al.), 125
Mucoepidermoid tumors of bronchus (Reichle and Rosemond), 443
Muscle bundles, anomalous, right ventricular obstruction resulting from (Warden et al.), 53
Myocardial blood flow, effect of epicardiectomy on (King et al.), 660
rubidium^{86} ion uptake patterns, quantitation of experimental infarcts by (Killen et al.), 597
Myxoma, atrial, left, 5 to 10 years previously, follow-up study of 3 patients after removal of (Firor et al.), 515

N

Nakayama's instrument for small vessel anastomoses (Abe et al.), 808
Neurological complications, nonmetastatic, of bronchogenic carcinoma (Morton et al.), 14
Neuromyopathies, carcinomatous (Morton et al.), 14
North American blastomycosis, pulmonary, results of surgical and nonoperative treatment for (Larson et al.), 714

O

Obstruction, fatal, of aortic root by Starr-Edwards aortic ball-valve prosthesis (Najafi and DeWall), 180
right ventricular, resulting from anomalous muscle bundles (Warden et al.), 53
Obstructive cardiomyopathy, hypertrophic, place of surgery in (Bentall), 49
Occlusion, acute, of anterior descending and left circumflex coronary arteries, experimental study comparing (Pifarré and Hufnagel), 761
Open-heart surgery on blood viscosity, effects of (Rand et al.), 616
related to type and severity of cardiac lesion, hemodynamics of intracardiac return during (Manabe et al), 213
respiratory complications after (Provan et al.), 626
Operative management of the heavily calcified aortic valve (Haupt et al.), 656
Oxygen gradients, alveolar-arterial, after open intracardiac surgery (Geha et al.), 609
Oxygenator, membrane, for respiratory failure, prolonged veno-venous perfusion with (Zotti et al.), 383

P

Pacemaker(s), cardiac, internal, lobectomy in patient with (Leagus et al.), 268
endocardial, transvenous, technique for insertion of (Smyth), 755
synchronous and asynchronous, physiological studies and clinical experience in patients with (Brockman et al.), 864
Palliation of esophageal carcinoma by prosthetic intubation (Fell et al.), 272
Perforation of benign mediastinal teratoma into pericardial sac, acute cardiac tamponade due to (Marsten et al.), 700
Perfusion fibrinolysis, a quantitative determination of (O'Neill et al.), 777
hypothermic, coronary resistance changes with (Sterns et al.), 579
of lungs, pulmonary complications following (Awad et al.), 767
veno-venous, prolonged, with a membrane oxygenator for respiratory failure (Zotti et al.), 383
total body, hemodynamic changes associated with (Najafi et al.), 590
Pericardial sac, acute cardiac tamponade due to perforation of benign mediastinal teratoma into pericardial sac (Marsten et al.), 700
Pericardiectomy, radical, for constrictive pericarditis, evaluation of (Lazarides et al.), 821
Pericarditis, constrictive, evaluation of radical pericardiectomy for (Lazarides et al.), 821
Plasmacytoma, malignant, of lung with metastases (Kernen and Meyer), 739
Pleural effusion, malignant, talc poudrage for (Pearson and MacGregor), 732
Pleuropericardial syndrome, new concept of (Aronstam and Cox), 341
Pneumonectomy for carcinoma of lung, preoperative irradiation in patients undergoing (Mark et al.), 30
Preoperative investigation, intensive, in bronchogenic carcinoma, rationale of (Delarue and Strasberg), 391
Pressure, venous, in cardiac tamponade, effect of blood volume on (Morgan et al.), 575
Prostheses, intracardiac, endocarditis associated with (Amoury et al.), 36
valve, in childhood, use of (Smeloff et al.), 839
Prosthesis, ball-valve, aortic, Starr-Edwards, fatal obstruction of aortic root by (Najafi and DeWall), 180
Starr, results in 105 patients who underwent valvular replacement with (Zerbini et al.), 474
valve, Hufnagel, aortic valve replacement in presence of (du Plessis et al.), 493

Prosthetic heart valves, pulsatile flow studies of (Davey et al.), 264
mitral valves, Alvarez and Starr-Edwards, clinical experience with (Edmunds et al.), 185
Proximal aortic cannulation for extracorporeal circulation (Trimble and Bigelow), 674
Pseudotumor, postinflammatory, of trachea, case report of (Taraska), 279
Psychiatric complications following cardiac surgery. Part I. A review article (Hazán), 307; Part II. A working hypothesis—chemical approach (Hazán), 320
Pulmonary blastoma (embryoma) (Parker et al.), 694
complications following perfusion of the lungs (Awad et al.), 767
function during bronchoscopic examination, evaluation of (Okinaka), 119
North American blastomycosis, results of surgical and nonoperative treatment for (Larson et al.), 714
resection, commissurotomy for mitral stenosis combined with (Riley), 844
venous drainage, anomalous, total (Cooley et al.), 88
return and their surgical treatment, our experience with diagnosis of anomalies of (Burakovsky and Romashov), 521
Pulsatile flow studies of prosthetic heart valves (Davey et al.), 264

R

Removal of blunt foreign bodies from esophagus, use of Foley catheter for (Bigler), 759
of left atrial myxoma 5 to 10 years previously, follow-up study of 3 patients after (Firor et al.), 515
Renal function, plasma catecholamines, and effects of Dibenzyline on cardiac patients undergoing corrective surgery, correlation of (Indeglia et al.), 244
performance during clinical cardiopulmonary bypass with and without hemodilution (Mielke et al.), 229
Replacement, aortic valve, in presence of Hufnagel valve prosthesis (du Plessis et al.), 493
of canine mitral valve with semilunar valve (McKenzie et al.), 168
of mitral and tricuspid valves by mitral homograft (Hubka et al.), 195
prosthetic, of tricuspid valve (Kennedy et al.), 498
valvular, with Starr prosthesis, results in 105 patients who underwent (Zerbini et al.), 474
Resection(s) of bronchogenic carcinoma involving thoracic wall (Grillo et al.), 417
pulmonary, commissurotomy for mitral stenosis combined with (Riley), 844
tracheal and tracheobronchial (Mathey et al.), 1
Respiratory complications after open-heart surgery (Provan et al.), 626
failure, prolonged veno-venous perfusion with membrane oxygenator for (Zotti et al.), 383
Return, intracardiac, during open-heart surgery related to type and severity of cardiac lesion, hemodynamics of (Manabe et al.), 213
Return system, blood, cardiotomy, automatic, single-reservoir, multiple-line (Benzing et al.), 238
Rubidium^{86} ion uptake patterns, myocardial, quantitation of experimental infarcts by (Killen et al.), 597
Rupture of aorta into left lung (aortopulmonary fistula with lung hematoma formation) (Cosío-Pascal and Cardoso), 834
esophageal, in absence of vomiting (Conte), 137
Ruptured aneurysm of aortic sinus, unusual manifestations of (Hong et al.), 507

S

Semilunar valves, replacement of canine mitral valve with (McKenzie et al.), 168
Seminoma-like tumor of mediastinum (Nazari and Gagnon), 751
Septal defect(s), atrial, congestive heart failure in children with (Weinberg et al.), 81
ventricular, postinfarction, surgical management of (Allen and Woodwark), 346
Shock, cardiogenic, severe, by diastolic augmentation after ligation and division of left circumflex coronary artery in dogs, treatment of (Goldfarb et al.), 783
Starr prosthesis, results in 105 patients who underwent valvular replacement with (Zerbini et al.), 474
Starr-Edwards and Alvarez prosthetic mitral valves, clinical experience with (Edmunds et al.), 185
Starr-Edwards aortic ball-valve prosthesis, fatal obstruction of aortic root by (Najafi and DeWall), 180
Stenosis, aortic, supravalvular (Cornell et al.), 484
surgical treatment of (Rastelli et al.), 873
mitral, combined with pulmonary resection, commissurotomy for (Riley), 844
subaortic, hypertrophic, idiopathic, place of surgery in (Bentall), 49

Stenosis, subaortic—Cont'd.
muscular, results of surgery and hemodynamic observations in (Kelly et al.), 353
Sternum, lower, supra-umbilical abdominal wall, and diaphragm, diagnosis and surgical correction of combined congenital defects of (Haller and Cantrell), 286
Stimulation, electrical, synchronized, of heart, repetitive firing occurring during (Castellanos et al.), 334
Subaortic stenosis, hypertrophic, idiopathic, place of surgery in (Bentall), 49
muscular, results of surgery and hemodynamic observations in (Kelly et al.), 353
Subarachnoid-pleural fistula, traumatic (Overton et al.), 729
Subclavian steal syndrome (Killen et al.), 539
clinical and angiographic considerations (Santschi et al.), 103
traumatic, acute (Rojas et al.), 113
Supravalvular aortic stenosis (Cornell et al.), 484
surgical treatment of (Rastelli et al.), 873
Surgical treatment of Lutembacher's syndrome (Muller et al.), 66
Surgery, cardiovascular, past and present (Blalock), 153
Synchronous and asynchronous pacemakers, physiological studies and clinical experience in patients with (Brockman et al.), 864
Syndrome, Lutembacher's, surgical treatment of (Muller et al.), 66
pleuropericardial, new concept of (Aronstam and Cox), 341
postcardiotomy (Aronstam and Cox), 341
postpericardiotomy (Aronstam and Cox), 341
steal, subclavian (Killen et al.), 539
clinical and angiographic considerations (Santschi et al.), 103
traumatic, acute (Rojas et al.), 113

T

Talc poudrage for malignant pleural effusion (Pearson and MacGregor), 732
Tamponade, cardiac, acute, due to perforation of benign mediastinal teratoma into pericardial sac (Marsten et al.), 700
effect of blood volume on venous pressure in (Morgan et al.), 575
Teratoma, mediastinal, benign, into pericardial sac, acute cardiac tamponade due to perforation of (Marsten et al.), 700
Tetralogy of Fallot in infants, double aortic arch associated with (Binet et al.), 116
Thoracic duct laceration: Closure under conservative management based on lymphangiography evaluation (Chavez and Conn), 724
wall, resection of bronchogenic carcinoma involving (Grillo et al.), 417
Thymolipoma in patient with Graves' disease (Benton and Gerard), 428
Thymoma associated with megaesophagus (Demos et al.), 708
intrapulmonary (Yeoh et al.), 131
Trachea, case report of postinflammatory pseudotumor of (Taraska), 279
Tracheal and tracheobronchial resections (Mathey et al.), 1
Tracheobronchial resections, tracheal and (Mathey et al.), 1
Tracheostomy: Surgical technique and sequelae in 50 cardiovascular patients (Trimble and Yao), 569
terminal or mural, in anterior mediastinum (Grillo), 422
Traumatic subclavian steal syndrome, acute (Rojas et al.), 113
Tricuspid valvular insufficiency, isolated, due to subacute bacterial endocarditis (Kennedy et al.), 498
Tube(s), endoesophageal, complications of (Adams), 685
Mousseau-Barbin, in palliative surgery, use of: Inoperable cancer of esophagus (Barnard et al.), 125
Tumor(s), lung, of virologist (Glenn and Okinaka), 455
mucoepidermoid, of bronchus (Reichle and Rosemond), 443
primary, of lung, cause of: Amyloidosis, (Firestone and Joison), 292
seminoma-like, of mediastinum (Nazari and Gagnon), 751

V

Valve(s), heart, prosthetic, pulsatile flow studies of (Davey et al.), 264
mitral, prosthetic, Alvarez and Starr-Edwards, clinical experience with (Edmunds et al.), 185
and tricuspid, by mitral homograft, replacement of (Hubka et al.), 195
semilunar, replacement of canine mitral valve with (McKenzie et al.), 168
prostheses in childhood, use of (Smeloff et al.), 839
Valvular disease, mitral, during childhood and adolescence, surgery for (Collins et al.), 639
Venous drainage, pulmonary, anomalous, total (Cooley et al.), 88

Venous—Cont'd.
pressure in cardiac tamponade, effect of blood volume on (Morgan et al.), 575
return, pulmonary, and their surgical treatment, our experience with diagnosis of anomalies of (Burakovsky and Romashov), 521
Veno-venous perfusion, prolonged, with membrane oxygenator for respiratory failure (Zotti et al.), 383
Ventricle, right, ruptured aneurysm of right coronary sinus into (Yu et al.), 258
Ventricular fibrillation during hypothermia, mechanisms of (Mouritzen and Andersen), 585
Ventricular—Cont'd.
obstruction, right, resulting from anomalous muscle bundles (Warden et al.), 53
septal defects, postinfarction, surgical management of (Allen and Woodwark), 346
Vertebral body hemangioma, posterior mediastinal hemangioma associated with (Callahan and Simon), 283
Virologist, lung tumor of (Glenn and Okinaka), 455
Viscosity, blood, effects of open-heart surgery on (Rand et al.), 616
Vomiting, esophageal rupture in absence of (Conte), 137

Subject index*

A

Abdomen, upper, during surgery for bronchogenic carcinoma, transdiaphragmatic exploration of (Yashar), 599

Acid-base balance and respiratory work (Peters and Hedgpeth), 649

Adenomas, bronchial, peripheral (Heimburger et al.), 542

Alkalosis, respiratory and metabolic, on heart, electrophysiologic effects of (Cline et al.), 769

Alterations in cardiac output and regional blood flow: hyperbaric oxygenation (Hahnloser et al.), 223

Alveolar cell carcinoma, bronchiolar, solitary, of lung (Munnell et al.), 261

surfactant after lung reimplantation, changes in (Trimble et al.), 271

Amebiasis, thoracic repercussions of (Herrera-Llerandi), 361

American Association for Thoracic Surgery: Annual meeting notes, 146

Announcement of 1967 meeting, 309, 442, 609, 759

Constitution and by-laws, 148

Honored guest's address (Belsey), 164

List of officers, councilors, and members, 1966-1967, 444

Presidential address (Maier), 155

Amoeba histolytica (Herrera-Llerandi), 361

Anatomical study of peripheral pulmonary lymphatics (Pennell), 629

study of vascularity of structures surrounding human internal mammary artery contained in Sewell pedicle as used for myocardial revascularization (Silva and Vineberg), 236

Aneurysm(s) of ascending aorta causing obstruction of left pulmonary artery (Bevin et al.), 245

of descending thoracic and thoracoabdominal aorta, aneurysmoplasty and prosthetic bypass for (Edmunds and Folkman), 395

dissecting, of ascending aorta, aortico-atrial shunt due to rupture of (Temple et al.), 249

Aneurysm—Cont'd

post-infarction, in 4-year-old child, resection of (Robicsek et al.), 408

Aneurysmoplasty and prosthetic bypass for aneurysms of descending thoracic and thoracoabdominal aorta (Edmunds and Folkman), 395

Anomalous origin of left coronary artery from pulmonary artery, definitive surgical treatment of (Cooley et al.), 798

Anticoagulants and GBH coating, evaluations of: experimental tricuspid valve replacement (Tatooles et al.), 833

Antidiuretic hormone elaboration, inappropriate, in carcinoma of lung, hyponatremia from (Claxton et al.), 331

Aorta, ascending, aortico-atrial shunt due to rupture of dissecting aneurysm of (Temple et al.), 249

causing obstruction of left pulmonary artery, aneurysm of (Bevin et al.), 245

descending thoracic and thoracoabdominal, aneurysmoplasty and prosthetic bypass for aneurysms of (Edmunds and Folkman), 395

Aortic valves, homologous, preserved, replacement of canine mitral valve with (McKenzie et al.), 855

valvular disease, ball-valve replacement for (Mulder et al.), 76

regurgitation, fatal, following replacement of mitral and aortic valves: mechanical complication of double valve replacement (Roberts et al.), 189

Arrest, circulatory, evaluation of protective effect of hyperbaric oxygenation on central nervous system during (Moor et al.), 618

during surface-induced hypothermia, tolerance of puppies to (Ikeda et al.), 217

Artery, intercostal, implantation of: myocardial revascularization (Pearce et al.), 809

Atelectasis, acute and chronic, on pulmonary hemodynamics, effects of (Elebute et al.), 292

Atresia, esophageal, tracheoesophageal fistula and (Romsdahl et al.), 571

Atrial hypertension, controlled: method for supporting cardiac output following open-heart surgery (Fishman et al.), 777

*July, pp. 1-154; August, pp. 155-310; September, pp. 311-460; October, pp. 461-610; November, pp. 611-760; December, pp. 761-912.

Autogenous vein graft, "arterialized," experimental and clinical results of myocardial revascularization with (Ferlic et al.), 813
Autologous pericardium for mitral leaflet advancement (Sauvage et al.), 849

B

Balance, acid-base, and respiratory work (Peters and Hedgpeth), 649
Ball-valve replacement for aortic vaivular disease (Mulder et al.), 76
Banding, pulmonary artery, in infants and subsequent open-heart repair: two-stage surgical treatment of ventricular septal defect (Hallman et al.), 476
pulmonary, use of umbilical tape in (Goldberg el al.), 433
Beta-propiolactone effect on tensile properties of human pericardium (Pritchard et al.), 232
Biopsies, papillary muscle, obtained during mitral valve replacement, sodium/potassium ratios in (Schimert et al.), 126
Biopsy, scalene node: re-evaluation (Blair and Hughes), 595
Blalock-Hanlon operation in 90 patients with transposition of great vessels, results of (Cornell et al.), 525
Blood-brain barrier during cardiopulmonary bypass, studies on: penicillin epilepsy (Dobell et al.), 469
Blood flow, cerebral, in man during extracorporeal circulation (Wollman et al.), 558
regional, alterations in cardiac output and: hyperbaric oxygenation (Hahnloser et al.), 223
stream, fate of surface heparin of GBH- coated plastics after exposure to (Whiffen and Beeckler), 121
venous, central, for monitoring pH and pCO_2 in critically ill patient (Zahn and Weil), 105
volume and body fluid compartment changes soon after closed and open intracardiac surgery (Cleland et al.), 698
Board of Thoracic Surgery: examinations, 443, 610, 760 (Ann.)
Bronchial adenomas, peripheral (Heimburger et al.), 542
Bronchiolar (alveolar cell) carcinoma, solitary, of lung (Munnell et al.), 261
Bronchogenic carcinoma, reoperation for (Neptune et al.), 342
cyst, intrapericardial, giant (Leagus et al.), 581
Bronchography, controllable percutaneous catheter technique for (Wholey and Haller), 737
Bronchospirometry, canine: development of reliable catheter (Benfield et al.), 882
Bronchus, granular-cell myoblastoma of (Gallivan et al.), 875
Bypass, cardiopulmonary, anterior crural syndrome as a complication of (Herman et al.), 755
experimental study of pulmonary function following (Shimizu and Lewis), 565
ultrastructural evaluation of myocardial preservation during: the mitochondrion (Kottmeier and Wheat), 786
prosthetic, for aneurysms of descending thoracic and thoracoabdominal aorta, aneurysmoplasty and (Edmunds and Folkman), 395

C

Calf pulmonic area, heterotransplantation of human pulmonic valve to (Nelson et al.), 863
Canine bronchospirometry: development of reliable catheter (Benfield et al.), 882
Carcinoma (alveolar cell), bronchiolar, solitary, of lung (Munnell et al.), 261
bronchogenic, reoperation for (Neptune et al.), 342
transdiaphragmatic exploration of upper abdomen during surgery for (Yashar), 599
of lung, hyponatremia from inappropriate antidiuretic hormone elaboration in (Claxton et al.), 331
Cardiac dextroversion, successful total correction of ventricular septal defect, diverticulum of left ventricle, and anomaly of thoracoabdominal wall in 11-year-old boy with (Pérez-Alvarez et al.), 386
failure, acute, experimental, influence of counterpulsation on (Gallo et al.), 745
hypothermia, topical, in lieu of coronary perfusion (Sanger et al.), 533
output following open-heart surgery, method for supporting: controlled atrial hypertension (Fishman et al.), 777
to post-cardiotomy delirium, relation of (Blachly and Kloster), 422
and regional blood flow, alterations in: hyperbaric oxygenation (Hahnloser et al.), 223
vagotomy, selective (Cooper et al.), 761
Cardiopulmonary bypass, anterior crural syndrome as a complication of (Herman et al.), 755
experimental study of pulmonary function following (Shimizu and Lewis), 565
studies on blood-brain barrier during: penicillin epilepsy (Dobell et al.), 469
dynamics of acute complete heart block and ventricular stimulation in dog (Scarpelli and Spach), 86

Catheter, reliable, development of: canine bronchospirometry (Benfield et al.), 882
technique, percutaneous, controllable, for bronchography (Wholey and Haller), 737
Caustic stricture of esophagus, effect of intraluminal splinting in prevention of (Fell et al.), 675
Cerebral blood flow in man during extracorporeal circulation (Wollman et al.), 558
Chest surgery, experimental study of respiratory mechanics following (Shimizu and Lewis), 68
wall closure following thoracotomy, disruption of (Boyd et al.), 47
tumor, problems in management of (Dineen and Boltax), 588
Children, Teflon esophageal dilators for (Emerson), 579
Chondrosarcoma, sternal, pulmonic stenosis due to compression by (del Castillo et al.), 255
Circulation, extracorporeal, cerebral blood flow in man during (Wollman et al.), 558
hemodilution in: large or small non-blood prime (Cruz and Callaghan), 690
Circulatory arrest, evaluation of protective effect of hyperbaric oxygenation on central nervous system during (Moor et al.), 618
during surface-induced hypothermia, tolerance of puppies to (Ikeda et al.), 217
Closure, chest wall, following thoracotomy, disruption of (Boyd et al.), 47
Compression by sternal chondrosarcoma, pulmonic stenosis due to (del Castillo et al.), 255
Congenital abnormality of heart: Blalock-Hanlon operation for transposition of great vessels (Cornell et al.), 525
Controlled ventilation, routine use of: postoperative care following open-heart operations (Lefemine and Harken), 207
Coronary artery, left, from pulmonary artery, definitive surgical treatment of anomalous origin of (Cooley et al.), 798
perfusion, topical cardiac hypothermia in lieu of (Sanger et al.), 533
Counterpulsation on experimental acute heart failure, influence of (Gallo et al.), 745
Crural syndrome, anterior, as a complication of cardiopulmonary bypass (Herman et al.), 755
Cyst, bronchogenic, intrapericardial, giant (Leagus et al.), 581

D

Delirium, post-cardiotomy, relation of cardiac output to (Blachly and Kloster), 422
Diaphragmatic hernia due to direct trauma, strangulation and obstruction in (Sullivan), 725
Dibenzyline on incidence of vascular thrombosis, physiologic studies following reimplantation and homotransplantation of pulmonary lobes and effect of (Sharma et al.), 635
Dilators, esophageal, Teflon, for children (Emerson), 579
Disruption of chest wall closure following thoracotomy (Boyd et al.), 47
Diverticulum of left ventricle, and anomaly of thoracoabdominal wall in 11-year-old boy with cardiac dextroversion, successful total correction of ventricular septal defect (Pérez-Alvarez et al.), 386
Drainage systems, pleural, comparative study of physiology and physics of (Enerson and McIntyre), 40
Dysfunction, organ, caused by prolonged use of pump oxygenator, importance of microembolism in pathogenesis of (Allardyce et al.), 706

E

Editorial: Specialty training in thoracic-cardiovascular surgery (Effler), 605
Electrophrenic respiration by radiofrequency induction (van Heeckeren and Glenn), 655
Electrophysiologic effects of respiratory and metabolic alkalosis on heart (Cline et al.), 769
Embolism, pulmonary, recurrent (Just-Viera et al.), 282
Epilepsy, penicillin: studies on blood-brain barrier during cardiopulmonary bypass (Dobell et al.), 469
Esophageal atresia, tracheoesophageal fistula and (Romsdahl et al.), 571
dilators, Teflon, for children (Emerson), 579
stricture, experimental, with use of skin-lined fundic patch, correction of (Tsukamoto and Thal), 682
Esophagus, effect of intraluminal splinting in prevention of caustic stricture of (Fell et al.), 675
functional disease of (Belsey), 164
instrumental perforation of (Groves), 1
Examinations, Board of Thoracic Surgery, 443, 610, 760 (Ann.)
Exchanger, gas and heat, combined (Smyth et al.), 97
Exercise and to isoproterenol following total correction of Fallot's tetralogy, hemodynamic responses to (Shah and Kidd), 138
Exploration, transdiaphragmatic, of upper abdomen during surgery for bronchogenic carcinoma (Yashar), 599

Extracorporeal circulation, cerebral blood flow in man during (Wollman et al.), 558
machines, hydrodynamic hemolysis in (Yarborough et al.), 550

F

Failure, cardiac, acute, experimental, influence of counterpulsation on (Gallo et al.), 745
Fallot, tetralogy of, factors that modify hemodynamic results in total correction of (Malm et al.), 502
Fallot's tetralogy, hemodynamic responses to exercise and to isoproterenol following total correction of (Shah and Kidd), 138
Fistula, tracheoesophageal, and esophageal atresia (Romsdahl et al.), 571
Flowmeter studies of internal mammary artery function after implantation into left ventricular myocardium (Provan et al.), 820
Fluid, body, and blood volume compartment changes soon after closed and open intracardiac surgery (Cleland et al.), 698
Fluids, priming, for two-hour hemodilution perfusion, comparative study of (Miyauchi et al.), 413
Foramen of Morgagni, surgical treatment of hernia of (Comer and Clagett), 461
Functional disease of esophagus (Belsey), 164
Fundic patch, skin-lined, correction of experimental esophageal stricture with use of (Tsukamoto and Thal), 682

G

Gas and heat exchanger, combined (Smyth et al.), 97
GBH-coated plastics after exposure to blood stream, fate of surface heparin of (Whiffen and Beeckler), 121
GBH coating, evaluation of anticoagulants and: experimental tricuspid valve replacement (Tatooles et al.), 833
Giant intrapericardial bronchogenic cyst (Leagus et al.), 581
Goodpasture, hemorrhagic pulmonary-renal syndrome of (Sirak et al.), 54
Gott valve: comparative study of prosthetic valves (Smeloff et al.), 843
Graft, vein, autogenous, "arterialized," experimental and clinical results of myocardial revascularization with (Ferlic et al.), 813
Granular-cell myoblastoma of bronchus (Gallivan et al.), 875
tumors (myoblastomas) of tracheobronchial tree (Benson), 17
Great vessels, results of Blalock-Hanlon operation in 90 patients with transposition of (Cornell et al.), 525

H

Heart block, complete, acute, and ventricular stimulation in dog, cardiopulmonary dynamics of (Scarpelli and Spach), 86
electrophysiologic effects of respiratory and metabolic alkalosis on (Cline et al.), 769
failure, acute, experimental, influence of counterpulsation on (Gallo et al.), 745
induced, in dogs, hemodynamic effects of mechanical auxiliary ventricle following (Chaptal et al.), 376
valves, prosthetic, comparative study of (Smeloff et al.), 841
Heat dissipation, in vivo, investigation of induced chronic hyperthermia and (Bernhard et al.), 611
and gas exchanger, combined (Smyth et al.), 97
Hemodilution in extracorpororeal circulation: large or small non-blood prime? (Cruz and Callaghan), 690
large volume, experimental, with plasma (Gadboys et al.), 112
perfusion, two-hour, comparative study of priming fluids for (Miyauchi et al.), 413
Hemodynamic effects of mechanical auxiliary ventricle following induced heart failure in dogs (Chaptal et al.), 376
recordings, pulmonary, chronic, in nonthoracotomized unanesthetized dogs (Welter and Cummings), 428
responses to exercise and to isoproterenol following total correction of Fallot's tetralogy (Shah and Kidd), 138
results in total correction of tetralogy of Fallot, factors that modify (Malm et al.), 502
Hemodynamics, pulmonary, effects of acute and chronic atelectasis on (Elebute et al.), 292
function, and morphology in isolated perfused canine lungs, preservation of (Veith et al.), 437
Hemolysis, hydrodynamic, in extracorporeal machines (Yarborough et al.), 550
Hemorrhagic pulmonary-renal syndrome of Goodpasture (Sirak et al.), 54
Hemothorax, traumatic, acute, considerations in management of (Beall et al.), 351
Heparin, must it be neutralized following open-heart operations? (Castaneda), 716
surface, of GBH-coated plastics after exposure to blood stream, fate of (Whiffen and Beeckler), 121
Hernia, diaphragmatic, due to direct trauma, strangulation and obstruction in (Sullivan), 725
of foramen of Morgagni, surgical treatment of (Comer and Clagett), 461
Herniation, omental, intrathoracic (Pomerantz and Twigg), 735

Heterotransplantation of human pulmonic valve to calf pulmonic area (Nelson et al.), 863
Homologous aortic valves, preserved, replacement of canine mitral valve with (McKenzie et al.), 855
Homotransplantation and reimplantation of pulmonary lobes and effect of Dibenzyline on incidence of vascular thrombosis, physiologic studies following (Sharma et al.), 635
Honored Guest's address: Functional disease of the esophagus (Belsey), 164
Hormone elaboration, antidiuretic, inappropriate, in carcinoma of lung, hyponatremia from (Claxton et al.), 331
Hydrodynamic hemolysis in extracorporeal machines (Yarborough et al.), 550
Hyperbaric oxygenation: alterations in cardiac output and regional blood flow (Hahnloser et al.), 223
on central nervous system during circulatory arrest, evaluation of protective effect of (Moor et al.), 618
Hyperplasia, lymph node, mediastinal (Stanford et al.), 303
Hypertension, atrial, controlled: method for supporting cardiac output following open-heart surgery (Fishman et al.), 777
Hyperthermia, chronic, induced, and in vivo heat dissipation, investigation of (Bernhard et al.), 611
Hyponatremia from inappropriate antidiuretic hormone elaboration in carcinoma of the lung (Claxton et al.), 341
Hypothermia, cardiac, topical, in lieu of coronary perfusion (Sanger et al.), 533
surface-induced, tolerance of puppies to circulatory arrest during (Ikeda et al.), 217

I

Implantation of intercostal artery: myocardial revascularization (Pearce et al.), 809
into left ventricular myocardium, flowmeter studies of internal mammary artery function after (Provan et al.), 820
of synchronous pacing unit in 7-month-old infant (Harris et al.), 277
Implants, intravascular, of chlorosulphonated polyethylene, thrombus resistance of (Wright et al.), 740
Induced heart failure in dogs, hemodynamic effects of mechanical auxiliary ventricle following (Chaptal et al.), 376
Induction, radiofrequency, electrophrenic respiration by (van Heeckeren and Glenn), 655
Infant, 7-month-old, implantation of synchronous pacing unit in (Harris et al.), 277
Infants and subsequent open-heart repair, results of pulmonary artery banding in: two-stage surgical treatment of ventricular septal defect (Hallman et al.), 476
Instrumental perforation of esophagus (Groves), 1
Intracardiac surgery, closed and open, blood volume and body fluid compartment changes soon after (Cleland et al.), 698
Intrathoracic omental herniation (Pomerantz and Twigg), 735
Isoproterenol and to exercise following total correction of Fallot's tetralogy, hemodynamic responses to (Shah and Kidd), 138

K

Kay-Suzuki valve: comparative study of prosthetic valves (Smeloff et al.), 844

L

Leaflet advancement, mitral, autologous pericardium for (Sauvage et al.), 849
Liver and pericardial metastases, successful removal of right atrial myxoma mistaken for (Holswade et al.), 240
Lobes, pulmonary, and effect of Dibenzyline on incidence of vascular thrombosis, physiologic studies following reimplantation and homotransplantation of (Sharma et al.), 635
Lung(s), canine, perfused, isolated, preservation of pulmonary function, hemodynamics, and morphology in (Veith et al.), 437
hyponatremia from inappropriate antidiuretic hormone elaboration in carcinoma of (Claxton et al.), 331
reimplantation, changes in alveolar surfactant after (Trimble et al.), 271
solitary bronchiolar (alveolar cell) carcinoma of (Munnell et al.), 261
Lymph node hyperplasia, mediastinal (Stanford et al.), 303
Lymphatics, pulmonary, peripheral, anatomical study of (Pennell), 629
and pleural (Maier), 155
Lymphoma, pulmonary, primary (Ehrenstein), 31

M

Mammary artery, internal, function after implantation into left ventricular myocardium, flowmeter studies of (Provan et al.), 820
Management of acute traumatic hemothorax, considerations in (Beall et al.), 351
Massachusetts General Hospital, cases of thymoma at (Wilkins et al.), 322
Mediastinal lymph node hyperplasia (Stanford et al.), 303

Metabolic and respiratory alkalosis on heart, electrophysiologic effects of (Cline et al.), 769

Metastases, liver and pericardial, successful removal of right atrial myxoma mistaken for (Holswade et al.), 240

Microembolism in pathogenesis of organ dysfunction caused by prolonged use of pump oxygenator, importance of (Allardyce et al.), 706

Mitral leaflet advancement, autologous pericardium for (Sauvage et al.), 849

regurgitation based on an analysis of early and late results, reappraisal of nonprosthetic reconstructive surgery for (Hessel et al.), 193

valve, canine, with preserved homologous aortic valves, replacement of (McKenzie et al.), 855

replacement, sodium/potassium ratios in papillary muscle biopsies obtained during (Schimert et al.), 126

Mitochondrion: ultrastructural evaluation of myocardial preservation during cardiopulmonary bypass (Kottmeier and Wheat), 786

Monitoring pH and pCO_2 in critically ill patients, central venous blood for (Zahn and Weil), 105

Morgagni, foramen of, surgical treatment of hernia of (Comer and Clagett), 461

Morphology, pulmonary function, and hemodynamics in isolated perfused canine lungs, preservation of (Veith et al.), 437

Muscular subaortic stenosis, ventriculomyotomy operation for (Bigelow et al.), 514

Myasthenia gravis, thymoma with and without (Wilkins et al.), 322

Myoblastoma, granular-cell, of bronchus (Gallivan et al.), 875

Myoblastomas (granular cell tumors) of tracheobronchial tree (Benson), 17

Myocardial preservation during cardiopulmonary bypass, ultrastructural evaluation of: the mitochondrion (Kottmeier and Wheat), 786

revascularization with "arterialized" autogenous vein graft, experimental and clinical results of (Ferlic et al.), 813

implantation of intercostal artery (Pearce et al.), 809

Myocardium, ventricular, left, flowmeter studies of internal mammary artery function after implantation into (Provan et al.), 820

Myxoma, atrial, right, mistaken for liver and pericardial metastases, successful removal of (Holswade et al.), 240

N

Nervous system, central, during circulatory arrest, evaluation of protective effect of hyperbaric oxygenation on (Moor et al.), 618

Neutralization of heparin following open-heart operation? (Castaneda), 716

O

Obstruction of left pulmonary artery, aneurysm of ascending aorta causing (Bevin et al.), 245

and strangulation in diaphragmatic hernia due to direct trauma (Sullivan), 725

Omental herniation, intrathoracic (Pomerantz and Twigg), 735

Open-heart operations, must heparin be neutralized following? (Castaneda), 716

postoperative care following: routine use of controlled ventilation (Lefemine and Harken), 207

repair, subsequent, results of pulmonary artery banding in infants and: two-stage surgical treatment of ventricular septal defect (Hallman et al.), 476

surgery, method for supporting cardiac output following: controlled atrial hypertension (Fishman et al.), 777

Origin, anomalous, of left coronary artery from pulmonary artery, definitive surgical treatment of (Cooley et al.), 798

Output, cardiac, to post-cardiotomy delirium, relation of (Blachly and Kloster), 422

Oxygenation, hyparbaric: alterations in cardiac output and regional blood flow (Hahnloser et al.), 223

on central nervous system during circulatory arrest, evaluation of protective effect of (Moor et al.), 618

Oxygenator, pump, importance of microembolism in pathogenesis of organ dysfunction caused by prolonged use of (Allardyce et al.), 706

P

Pacing unit, synchronous, in 7-month-old infant, implantation of (Harris et al.), 277

Papillary muscle biopsies obtained during mitral valve replacement, sodium/potassium ratios in (Schimert et al.), 126

Patch, fundic, skin-lined, correction of experimental esophageal stricture with use of (Tsukamoto and Thal), 682

Pathogenesis and classification of amebiasis (Herrera-Llerandi), 361

of organ dysfunction caused by prolonged use of pump oxygenator, importance of microembolism in (Allardyce et al.), 706

pCO_2 and pH in critically ill patient, central venous blood for monitoring (Zahn and Weil), 105
Pedicle, Sewell, as used for myocardial revascularization, anatomical study of vascularity of structures surrounding human internal mammary artery contained in (Silva and Vineberg), 236
Penicillin epilepsy: studies on blood-brain barrier during cardiopulmonary bypass (Dobell et al.), 469
Percutaneous catheter technique, controllable, for bronchography (Wholey and Haller), 737
Perforation, instrumental, of esophagus (Groves), 1
Perfusion, coronary, topical cardiac hypothermia in lieu of (Sanger et al.), 533
  hemodilution, two-hour, comparative study of priming fluids for (Miyauchi et al.), 413
Pericardium, autologous, for mitral leaflet advancement (Sauvage et al.), 849
  human, effect of beta-propiolactone on tensile properties of (Pritchard et al.), 232
Periosteum, autologous, tracheobronchial reconstruction with (Fonkalsrud and Plested), 666
Peripheral bronchial adenomas (Heimburger et al.), 542
  pulmonary lymphatics, anatomical study of (Pennell), 629
pH and pCO_2 in critically ill patient, central venous blood for monitoring (Zahn and Weil), 105
Physics of pleural drainage systems, comparative study of physiology and (Enerson and McIntyre), 40
Physiology and physics of pleural drainage systems, comparative study of (Enerson and McIntyre), 40
Plasma, experimental large volume hemodilution with (Gadboys et al.), 112
Plastics, GBH-coated, after exposure to blood stream, fate of surface heparin of (Whiffen and Beeckler), 121
Pleural drainage systems, comparative study of physiology and physics (Enerson and McIntyre), 40
  and pulmonary lymphatics (Maier), 155
Polyethylene, chlorosulphonated, thrombus resistance of intravascular implants of (Wright et al.), 740
Post-infarction aneurysm in 4-year-old child, resection of (Robicsek et al.), 408
Postoperative care following open-heart operations: routine use of controlled ventilation (Lefemine and Harken), 207
Preservation, myocardial, during cardiopulmonary bypass, ultrastructural evaluation of: the mitochondrion (Kottmeier and Wheat), 786
Presidential address: The pulmonary and pleural lymphatics: a challenge to the thoracic explorer (Maier), 155
Prime, non-blood, large or small? Hemodilution in extracorporeal circulation (Cruz and Callaghan), 690
Priming fluids for two-hour hemodilution perfusion, comparative study of (Miyauchi et al.), 413
Prosthetic heart valves, comparative study of (Smeloff et al.), 841
Pulmonary artery, definitive surgical treatment of anomalous origin of left coronary artery from (Cooley et al.), 798
  left, aneurysm of ascending aorta causing obstruction of (Bevin et al.), 245
  banding, use of umbilical tape in (Goldberg et al.), 433
  embolism, recurrent (Just-Viera et al.), 282
  function following cardiopulmonary bypass, experimental study of (Shimizu and Lewis), 565
    hemodynamics, and morphology in isolated perfused canine lungs, preservation of (Veith et al.), 437
  hemodynamic recordings, chronic, in nonthoracotomized unanesthetized dogs (Welter and Cummings), 428
  hemodynamics, effects of acute and chronic atelectasis on (Elebute et al.), 292
  lymphoma, primary (Ehrenstein), 31
  and pleural lymphatics (Maier), 155
  surfactant, normal, observations from respiratory history of 30 patients with (Thomas), 11
Pulmonic stenosis due to compression by sternal chondrosarcoma (del Castillo et al.), 255
  valve, human, to calf pulmonic area, heterotransplantation of (Nelson et al.), 863

R

Radiofrequency induction, electrophrenic respiration by (van Heeckeren and Glenn), 655
Ratios, sodium/potassium, in papillary muscle biopsies obtained during mitral valve replacement (Schimert et al.), 126
Reconstruction, tracheobronchial, with autologous periosteum (Fonkalsrud and Plested), 666
Reconstructive surgery, nonprosthetic, for mitral regurgitation based on analysis of early and late results, reappraisal of (Hessel et al.), 193

Recordings, hemodynamic, pulmonary, chronic, in nonthoracotomized unanesthetized dogs (Welter and Cummings), 428
Regurgitation, mitral, based on analysis of early and late results, reappraisal of nonprosthetic reconstructive surgery for (Hessel et al.), 193
Reimplantation and homotransplantation of pulmonary lobes and effect of Dibenzyline on incidence of vascular thrombosis, physiologic studies following (Sharma et al.), 635
lung, changes in alveolar surfactant after (Trimble et al.), 271
Reoperation for bronchogenic carcinoma (Neptune et al.), 342
Repair of ventricular septal defect, results of (Cartmill et al.), 486
Replacement, ball-valve, for aortic valvular disease (Mulder et al.), 76
of canine mitral valve with preserved homologous aortic valves (McKenzie et al.), 855
double valve, mechanical complication of (Roberts et al.), 189
experimental, of trachea (Poticha and Lewis), 61
of mitral and aortic valves, fatal aortic regurgitation following: mechanical complication of double valve replacement (Roberts et al.), 189
mitral valve, sodium/potassium ratios in papillary muscle biopsies obtained during (Schimert et al.), 126
tricuspid valve, experimental: evaluations of anticoagulants and GBH coating (Tatooles et al.), 833
Resection of post-infarction aneurysm in 4-year-old child (Robicsek et al.), 408
Resistance, thrombus, of intravascular implants of chlorosulphonated polyethylene (Wright et al.), 740
Respiration, electrophrenic, by radiofrequency induction (van Heeckeren and Glenn), 655
Respiratory history of 30 patients with normal pulmonary surfactant, observations from (Thomas), 11
mechanics following chest surgery, experimental study of (Shimizu and Lewis), 68
and metabolic alkalosis on heart, electrophysiologic effects of (Cline et al.), 769
work, acid-base balance and (Peters and Hedgpeth), 649
Retractor, sternum, new (Kuypers and Murphy), 604
Revascularization, myocardial, anatomical study of vascularity of structures surrounding human internal mammary artery contained in Sewell pedicle as used for (Silva and Vineberg), 236
Revascularization, myocardial—Cont'd
with "arterialized" autogenous vein graft, experimental and clinical results of (Ferlic et al.), 813
implantation of intercostal artery (Pearce et al.), 809
Roe valve: comparative study of prosthetic valves (Smeloff et al.), 843
Rupture of dissecting aneurysm of ascending aorta, aortico-atrial shunt due to (Temple et al.), 249

S

Scalene node biopsy: re-evaluation (Blair and Hughes), 595
Septal defect, ventricular, diverticulum of left ventricle, and anomaly of thoracoabdominal wall in 11-year-old boy with cardiac dextroversion, successful total correction of (Pérez-Alvarez et al.), 386
two-stage surgical treatment of (Hallman et al.), 476
results of repair of (Cartmill et al.), 486
Sewell pedicle as used for myocardial revascularization, anatomical study of vascularity of structures surrounding human internal mammary artery contained in (Silva and Vineberg), 236
Shunt, aortico-atrial, due to rupture of dissecting aneurysm of ascending aorta (Temple et al.), 249
Skeleton, thoracic, tumors of (Ochsner et al.), 311
Smeloff-Cutter valve: comparative study of prosthetic valves (Smeloff et al.), 845
Specialty training in thoracic-cardiovascular surgery (Effler), 605 (Edit.)
Splinting, intraluminal, in prevention of caustic stricture of esophagus, effect of (Fell et al.), 675
Starr-Edwards valve: comparative study of prosthetic valves (Smeloff et al.), 844
Stenosis, pulmonic, due to compression by sternal chondrosarcoma (del Castillo et al.), 255
subaortic, muscular, ventriculomyotomy operation for (Bigelow et al.), 514
Sternum retractor, new (Kuypers and Murphy), 604
Stimulation, ventricular, in dog, cardiopulmonary dynamics of acute complete heart block and (Scarpelli and Spach), 86
Strangulation and obstruction in diaphragmatic hernia due to direct trauma (Sullivan), 725
Stricture, caustic, of esophagus, effect of intraluminal splinting in prevention of (Fell et al.), 675
esophageal, experimental, with use of skin-lined fundic patch, correction of (Tsukamoto and Thal), 682

Subaortic stenosis, muscular, ventriculomyotomy operation for (Bigelow et al.), 514
Surfactant, alveolar, after lung reimplantation, changes in (Trimble et al.), 271
pulmonary, normal, observations from respiratory history of 30 patients with (Thomas), 11
Syndrome, anterior crural, as a complication of cardiopulmonary bypass (Herman et al.), 755
of Goodpasture, pulmonary-renal, hemorrhagic (Sirak et al.), 54

T

Tape, umbilical, in pulmonary banding, use of (Goldberg et al.), 433
Teflon esophageal dilators for children (Emerson), 579
Tensile properties of human pericardium, effect of beta-propiolactone on (Pritchard et al.), 232
Tetralogy of Fallot, factors that modify hemodynamic results in total correction of (Malm et al.), 502
Thoracic repercussions of amebiasis (Herrera-Llerandi), 361
skeleton, tumors of (Ochsner et al.), 311
Thoracoabdominal wall in 11-year-old boy with cardiac dextroversion, successful total correction of ventricular septal defect, diverticulum of left ventricle, and anomaly of (Pérez-Alvarez et al.), 386
Thoracotomy, disruption of chest wall closure following (Boyd et al.), 47
Thrombosis, vascular, physiologic studies following reimplantation and homotransplantation of pulmonary lobes and effect of Dibenzyline on incidence of (Sharma et al.), 635
Thrombus resistance of intravascular implants of chlorosulphonated polyethylene (Wright et al.), 740
Thymoma at the Massachusetts General Hospital, cases of (Wilkins et al.), 322
with and without myasthenia gravis (Wilkins et al.), 322
Tolerance of puppies to circulatory arrest during surface-induced hypothermia (Ikeda et al.), 217
Topical cardiac hypothermia in lieu of coronary perfusion (Sanger et al.), 533
Trachea, experimental replacement of (Poticha and Lewis), 61
Tracheobronchial reconstruction with autologous periosteum (Fonkalsrud and Plested), 666
tree, granular cell tumors (myoblastomas) of (Benson), 17
Tracheoesophageal fistula and esophageal atresia (Romsdahl et al.), 571
Training, specialty, in thoracic-cardiovascular surgery (Effler), 605 (Edit.)
Transdiaphragmatic exploration of upper abdomen during surgery for bronchogenic carcinoma (Yashar), 599
Transposition of great vessels, results of Blalock-Hanlon operation in 90 patients with (Cornell et al.), 525
Trauma, direct, strangulation and obstruction in diaphragmatic hernia due to (Sullivan), 725
Traumatic hemothorax, acute, considerations in management of (Beall et al.), 351
Tricuspid valve replacement, experimental: evaluations of anticoagulants and GBH coating (Tatooles et al.), 833
Tumor(s), chest wall, problems in management of (Dineen and Boltax), 588
granular cell (myoblastomas) of tracheobronchial tree (Benson), 17
of thoracic skeleton (Ochsner et al.), 311

U

Umbilical tape in pulmonary banding, use of (Goldberg et al.), 433

V

Vagotomy, cardiac, selective (Cooper et al.), 761
Valve(s), mitral and aortic, fatal aortic regurgitation following replacement of: mechanical complication of double valve replacement (Roberts et al.), 189
pulmonic, human, to calf pulmonic area, heterotransplantation of (Nelson et al.), 863
Vascularity of structures surrounding human internal mammary artery contained in Sewell pedicle as used for myocardial revascularization, anatomical study of (Silva and Vineberg), 236
Vein graft, autogenous, "arterialized," experimental and clinical results of myocardial revascularization with (Ferlic et al.), 813
Ventilation, controlled, routine use of: postoperative care following open-heart operations (Lefemine and Harken), 207
Ventricle, auxiliary, mechanical, following induced heart failure in dogs, hemodynamic effects of (Chaptal et al.), 376
Ventricular septal defect, results of repair of (Cartmill et al.), 486
two-stage surgical treatment of (Hallman et al.), 476
stimulation in dog, cardiopulmonary dynamics of acute complete heart block and (Scarpelli and Spach), 86
Ventriculomyotomy operation for muscular subaortic stenosis (Bigelow et al.), 514
